

COTTAGE CO-OP  
NURSERY SCHOOL

Cottage Co-op Nursery School Parent Talk Series Presents

# SENSORY INTEGRATION: WHAT IS IT AND HOW DOES IT IMPACT BEHAVIOR, EMOTIONAL REGULATION AND DEVELOPMENT?

JAMIE CHAVES, OTD, OTR/L, SWC

*Sensory information pervades our lives: how our clothes feel, what the air smells like, what the radio is playing, how we navigate a busy room, how we sit upright in a chair, what our food tastes like, how bright the sun seems...to name a few. How do our brains make sense of this constant bombardment of information? What happens when our brains take in too much of this information? What happens when our brains take in too little of this information? How do sensory integration issues impact development, play skills, and school performance? Discovering the answers to these questions will open up a world of understanding your child and his/her behaviors so you can support your child in the best way possible.*

April 26, 7:00pm

Walden School

74 S. San Gabriel Blvd Pasadena CA 91107

*Tickets may be purchased at: <http://www.cottagecoop.org/news/sensory-integration>*

**General Admission \$20, Cottage Alumni \$10, free to Cottage families**
