

Welcome to the CCC Community!

The CCC uses an app called ParentSquare as one of its main forms of communication. The administrative team utilizes this platform to send important information to the CCC community. ParentSquare also allows us to send both email and texts to ensure that all families receive notifications in a timely, efficient manner. Depending on your phone setting, you can also opt-in to receive notifications from ParentSquare.

ParentSquare has many features that we are excited about, including any emergency notifications that may arise, announcements regarding CCC events, and Parent-Teacher Partnership opportunities. We also utilize this platform for parents to log Parent Hours, sign up for volunteer work, and watch weekly wrap up videos from each class.

Upon enrollment, your child will be added to ParentSquare under his/her class. You will receive an email invitation to activate your account by confirming your email and setting up a password.

You do not need to download the app to receive information! Messages will come to you directly via email or text.

Please let us know if you have any questions.

Warmly,  
The CCC Administrative Team
